

## LNP Lipid-12

Cat. No.: SN-M-LE297

### Chemical Properties

|                   |                                                                                           |
|-------------------|-------------------------------------------------------------------------------------------|
| Product Name      | LNP Lipid-12                                                                              |
| Full Name         | bis(2-hexyldecyl) 10-[3-(dimethylamino)propyl-octanoylamino]nonadecanedioate              |
| Cat. No.          | SN-M-LE297                                                                                |
| CAS No.           | 2036272-53-2                                                                              |
| Molecular Formula | C64H126N2O5                                                                               |
| Molecular Weight  | 1003.70                                                                                   |
| Storage           | Please store the product under the recommended conditions in the Certificate of Analysis. |
| Shipping          | Room temperature in continental US; may vary elsewhere.                                   |
| Purity            | 98+%                                                                                      |
